**Subject:** Region 5's Review and Comments on OEPA and Locals QAPPs

Randy-

Attached is Region 5's review and comment on OEPA/Local QAPPs. We suggest you consider our comments for your

upcoming revision. Presumably your SOPs also contain a lot of the same information as your QAPPs and so it would be

prudent to ensure your SOPs are up-to-date as well. These are Category 1 QAPPs and so they should contain all 24 QAPP

Elements; please bear that in mind when conducting your revisions.
